DK SECURITY HIRING AMID COVID-19 CRISIS

Grand Rapids, Michigan (April 2, 2020) – DK Security, a Grand Rapids-based physical security and investigations firm, is actively hiring during the unprecedented COVID-19 pandemic. Since the announcement of the first coronavirus case in Michigan, DK Security has hired an additional 100 Uniformed Security Officers, promoted 25+ current Event Staff employees to Uniformed Officers, and are actively recruiting for over 50 temporary and permanent positions throughout Michigan to add to their roster of over 2,400 employees. DK’s Director of Recruiting, Stephanie Schoenherr, adds, “While our first priority is the safety of our employees, we are also focused on being able to meet the increasing security needs of our clients. Our team has been working extremely hard to provide additional training for our current employees who have been displaced, so they may continue employment with us in other capacities. We are also heavily recruiting to fulfil additional security requests from our current clients as well as the addition of many new temporary clients from all over the state.”

DK Security has seen an increase in temporary security requests from Michigan healthcare facilities, pharmaceutical companies, and the food industry as a result of the COVID-19 outbreak. Johnny Kendall, DK’s Director of Marketing and Business Development states, “We have done an outstanding job quickly responding to our clients and fulfilling their additional security needs. We have been working alongside many organizations that are in need of temporary security. We are very proud to assist these organizations, which are playing a critical role in our communities during the current pandemic.”
